## **MOBILE UNIVERSE**

### **Manish Market in its New Avatar**

Manish Market, one of the busiest wholesale markets in Mumbai, famous for the whole sale markets of Electronics, cell phones and all its accessories like battery, handsfree, bluetooth doggle, bluetooth ear piece, memory card, cover, screen guard and many other fancy products which you may have not seen before + repairs, stuffed & other toys, fabrics, fashion accessories and various other products. A number of Chinese product can be bought from here like Mp3 Players , Digital Displays,LCD Screen, Fancy Lights, Crockery & Bone China items etc.

On the night of November 25, 2011, the entire market along with a few adjoining markets were destroyed in a major fire

that converted the whole market into ashes. There was no loss of life though, the financial losses were enormous. Thousands of families were affected by the unemployment and financial losses caused by the fire. Thousands of shopkeepers who had happily left for their homes after closing their shops for the day, were left clueless as to what they would do the next day and how they would feed their families from then on. No one knows whether it was a natural calamity or a human error but lakhs of people suffered heavily due to this tragedy. Many of the businessmen had even left the entire cash of the day's sale in their shops, to be deposited in the banks the following morning. But the fire does not differentiate between goods and currency. It turns everything into ashes.

## **MOBILE UNIVERSE**

With some exceptional efforts from a few leading businessmen and builders, the Orchid City Centre at Bellasis Road became the new address of the Mumbai Mobile Accessories Wholesalers Association, which went through a major renovation process before being made available to the trading community. The sprawling mall which once housed large departmental stores was completely redesigned and two floors of this mall were reconstructed with all legal permissions. The mall became an even more convenient place of shopping for the thousands of visitors from Mumbai and all over the country due to its proximity with the Mumbai Central Railway Station. The two floors have been equipped with all advanced amenities and specially the latest fire safety equipments. The passages are wide enough and have multiple entry / exit points leading to the corridor.

MOBILE UNIVERSE carried out a detailed report, updating the industry with the development in its April 2012 issue with images of the renovated mall and shops being set up by the occupants.

MOBILE UNIVERSE carried out a detailed report on the tragedy in its Feb. 2012 issue, with the images of the market after destruction. We have been visiting Mumbai every month since then and taking stock of the situation, month by month. But the city and its natives are brave enough and have again proved that they can not be tamed. Each time it has been struck by such calamities or terrorist attacks, it has stood up and moved on. Most of the business was scattered to different places as suited to individuals. A few larger ones shifted to Aditya Arcade at Lamington Road. But the medium and small scale traders were all left jobless and under debts.

## **MOBILE UNIVERSE**

Meanwhile, the reconstruction work was underway at Manish market as well. And the same has been completed and recently the market has reopened. The complex has been reconstructed afresh with wider passages, latest fire safety equipments, multiple entry / exit points, basic amenities etc. The shops have started to reopen and the hustle & bustle has also returned. The shops at ground floor have reopened. First floor shops are also being occupied by new shopkeepers. Mobile Accessories Brands are making their foothold again.

There is a special feature about the market. The market offers a wide range of high end cell phone accessories which are exclusively available only at Manish Market and the end user can also purchase the same from Manish here i.e it serves both purpose of wholesale as well as retail market. The importance of this market can not be undervalued due to its proximity with adjoining wholesale markets of other goods.

Now Manish market has really changed into its new Avatar. It has become a "Must visit" place in Mumbai. So the next time you visit Mumbai, do visit Manish Market.

And we, at MOBILE UNIVERSE wish all the shopkeepers & traders in the market, best of luck and good times ahead. May all their losses be recovered as soon as possible and all our brothers enjoy uninterrupted business environment in the times to come. We would like to publish the complete list of occupants with their shop numbers, firm names & other relevant details, for the industry to know and notice. This service will be free of any charges. For the same, we will need the co-operation of all concerned.

## Innovative Technologies

## MOBILE UNIVERSE

### Self charging Photovoltaic Film

A small French technology company called Wysips has created a new technology that would allow any cell phone to use solar power. They designed a thin, transparent, photovoltaic film that is placed on a phone's screen to continuously top off a gadget's charge using only the sun. The coating is incredibly thin, less than 100 microns deep, and contains strips of transparent photovoltaic cells laid on the screen that capture enough solar energy to produce electricity. On top of the cells is a layer of cylindrical lenticular lenses, which allow the user to see the light from the screen undistorted. It would not affect touch-screen abilities. According to Wysips, the coating can charge a typical cell phone battery in about six hours with constant direct sunlight, but it would take longer indoors.

With the coating, you would need to plug your cell phone in way less. Instead, just let it sit on your desk like you normally do and it will charge itself. Plus, it would allow phone companies to create slimmer batteries meaning slimmer, greener devices. Wysips designed the coating so it can be tailored to any device — not just cell phones. They hope to see the technology implemented into tablets and e-readers as well. They are already working on a next-generation model, which would allow 30 to 60 minutes of talk time from an hour of charging.

### Brunton Solar Roll

Looking for an eco-friendly and convenient alternative to charging your cell phone, camera, or laptop? The Brunton Solar Roll beats out solar-powered bags and backpacks and, certainly, the hassle of trying to find an electrical outlet when you're traveling with mobile devices in tow. All you need is a little sunlight, and you can easily charge laptops, cell phones, cameras, and even car batteries!

The Solar Roll is a 58-inch long roll-up solar panel that can be used to power anything from satellite phones to video cameras to GPS devices. It's apparently so reliable that famed mountaineer Ed Viesturs took it with him as he was climbing the Annapurna summit in the Himalayas. And don't worry about getting it wet – it's waterproof! How practical is that?

## **MOBILE QUIZ**

## **MOBILE UNIVERSE**

**This is a very simple way of gifting yourself a colour / fm / multimedia mobile phone from LvTel, every month. All you have to do is to send us the answer of our QUIZ.**

**Q: Name the first mobile handset with full colour screen? \***

The winner of this quiz will be rewarded with a LvTel L-28 mobile phone along with the winners credentials will be published in our magazine. To participate, please send us your answers on [info@mobileuniverse.co.in](mailto:info@mobileuniverse.co.in). Participants are requested to mention their name, complete address, firm's name & mobile number (all compulsory), in their mails.

**Terms & conditions :** If we get more than one correct answers, the winner will be chosen through a lucky draw. Winner will be informed personally as well.

The winner of the Feb. 2013 quiz is Mr. Hardeep Singh from Gurdaspur.

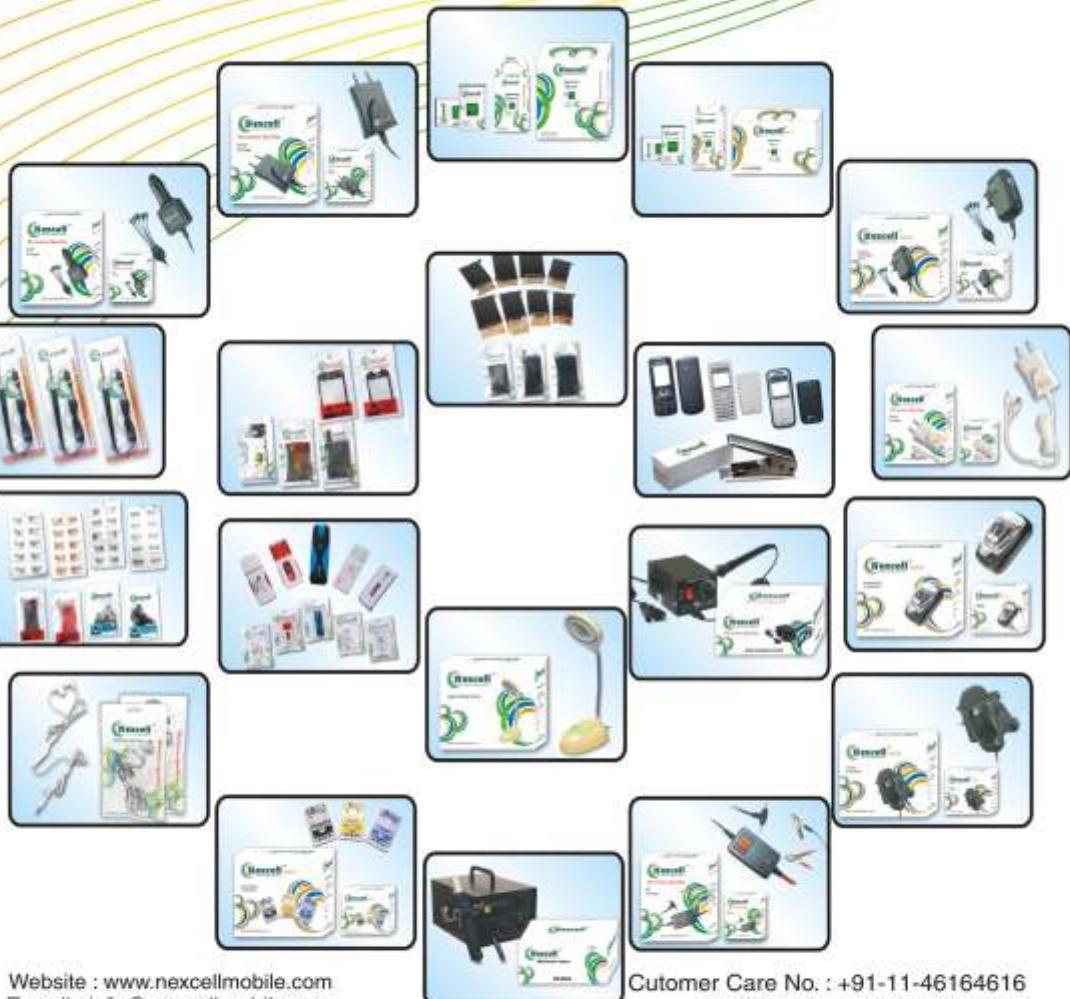

We congratulate Mr. Hardeep Singh on winning the LvTel L-28 multimedia mobile.

The quiz is sponsored by:

## **SOFTWARE MAGIC**

Sigma Box & Dongle, our latest discovery in software magic series, is a versatile software repairing and unlocking solution. It is not tied to a specific CPU type or model. Sigma box is a universal multibrand & multifunctional solution for MTK, Qualcomm & Broadcom based phone models. It currently supports Alcatel, Huawei, Motorola, ZTE & lots of other cell phones including a number of Android Smart phones.

One can choose between a box or a dongle. It has a very fast & secure unlocking procedure. Apart from the above brands, Sigma box is compatible with a few thousand models of hundreds of other brands including some top Chinese brands. It also calculates Unlock Codes by IMEI for various top brands and models, that too without internet connection. It also does not require Server Codes or Credits for most brands and models with no limits of codes calculated per day. Codes can be generated for almost all kinds of locks with Sigma box.

### Main features of this box :

- Direct Unlocking
- Read all Unlock Codes
- Read User Codes
- Format FFS
- Flash / Backup
- Service : Calibration settings, flex
- Restore IMEI

## **MOBILE UNIVERSE**

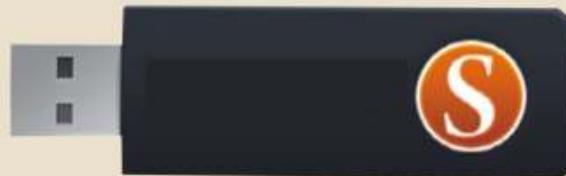

- Multilingual Software Interface
- Support for latest Operating Systems
- Diagnostics & Repair

**IMEI:** Sigma box can repair IMEI of phones with more than one SIM cards. Can also repair Software IMEI (phones with IMEI located in file system), Hardware IMEI (phones with IMEI located in OTP area flash chip), repair Blank IMEI and also repair IMEI of Huawei models with new security type.

**Flash / Backup :** Sigma box has vast features in this key segment. (<http://sigmakey.com/Sigma-Overview/MTK.html>)

### Other options :

- Works via UART interface - any virtual or physical COM-port (upto 921600 bps)
- Phone's external RAM testing
- Accelerating operations execution (boost mode)
- MTK boot speed autodetect
- DTR RTS serial port control

Latest firmware version, software, drivers and pinout support with clear indications are available online. Sigma box has a huge Flash Files Archive, latest firmware versions and selection of language packs.

Registered users are constantly informed about updates & inclusion of latest models in the compatibility lists. Sigma box works with following Operating Systems : Windows 2000, Windows XP - 32 / 64 bit, Windows Vista 32 / 64 bit, Windows server 2003 - 32 / 64 bit, Windows 7 - 32 / 64 bit & Windows server 2008.

# MOBILE UNIVERSE

## MOBILE UNIVERSE ARCHIVES

This page of **MOBILE UNIVERSE** is dedicated to the memories of the telecom growth. Here we will show you the images of the mobile phones of yesteryears. For a few of our readers, it may not be important or interesting enough but for some of them, it could be nostalgic memories of what was once a part of their lifestyle but long forgotten.

Ericsson - FH - 212  
World Premier - 1996

Dancall - 2711  
World Premier - 1995

Motorola - i - 1000  
World Premier - 1998

Rolsen - GM - 822  
World Premier - 2001

We request our readers to please contribute with images of more & more extinct models. We will publish them

# MOBILE UNIVERSE

## MOBILE UNIVERSE CONCEPT PHONES

This page of Mobile Universe will show you the images of mobile phones being developed in different parts of the World. You may get to see & use some of these mobiles in near future.

*Revolve (Kinetic Energy)
